San Fransisco's J Weekly highlights Kurt F. Stone's recently released *The Jews of Capitol Hill: A Compendium of Jewish Congressional Members*, calling the book a "meticulously researched, well-organized and highly readable compendium of historical facts and biographical information about the Jewish experience in Congress, past and present."

The book is **available via Amazon.com**, but for those interested in dipping into some Jewish Congressional history right away, have a look at **Biographical Sketches of Jews in the Fifty-Seventh Congress**, from the **American Jewish Year Book of 1903**.
